Work from home nursing jobs are on the rise as healthcare companies try to provide both excellent service and cut costs. If you want to be a work from home nurse, the possibilities have never been better!

How to Find Work From Home Nursing Jobs

Some companies readily identify their home-based positions, for example, here is how easy it is to find eviCore's remote jobs:

Careers:

You can [view all open career beginnings](#) or use the following search form to find jobs that suit your specific career interests.

Keywords:	<input type="text"/>
Category:	(All) ▼
Location:	US-Remote ▼ (All) (Current Location) US-Remote US-CA US-CA-Sacramento US-CO US-CO-Colorado Springs US-FL US-FL-Melbourne US-IL US-MA-Boston US-SC US-SC-Bluffton US-TN US-TN-Franklin US-TX

All companies don't make it as easy as eviCore, though. In many cases you will need to search.

When you arrive on company career sites, look for an option that will retrieve only the work from home positions, such as above. If there is no such option, try these terms to help you find them:

- work from home
- work at home
- remote
- virtual
- telework
- telehealth

This should help, but note that just because a position has one of these words in the title or description, it doesn't necessarily mean that the position is a home job.

For example, if you find a position based on searching for "work from home", when you click to read the full job description you may actually find that it says "this is not a work from home position". The search will find "work from home" for you, but it may not always be what you expect.

Or you may find that searching for "virtual" gives you a result that means that you will monitor patients virtually, but you will still work on-site at your employer's place of business.

Both of these scenarios are fairly common, so read job descriptions carefully.

More Home-Based Nursing Jobs

FlexJobs

[I strongly suggest FlexJobs for even more hand-picked and screened companies.](#)

Whether you are interested only in work at home nursing jobs, or if you are open to another type of flexible arrangement, FlexJobs has you covered.

Relode

These listings are from Relode, a partner company specializing in healthcare jobs. Most listings will be for brick-and-mortar listings where you will work on-site, but they do occasionally have remote nurse jobs, too.

- [CRA: Sr. Clinical Research Associate](#) Sarah Cannon (Home-based)

- [Oncology Research : Clinical Team Lead II](#) Sarah Cannon (Home-based)

- [RN: Med/Surg](#) West Hills Hospital (West Hills, CA)

- [Nurse: Case Manager](#) Select Medical (Atlanta, GA)
- [Chief Nursing Officer](#) Select Medical (Savannah, GA)

Job Board

I've included a job board so you can perform any job search that you want. It should be set to find "work from home nurse" jobs, and the job board will automatically pull search results for job listings near you.

To return more search results, I suggest making sure the description box says "work from home nurse", changing the location setting to United States, and ensuring that the drop down menu is set to find jobs posted anytime.

The job board will also return search results for Canada, the UK, and Australia.

Companies that Hire LPNs/LVNs to Work From Home

These companies are already on this list, but I get so many questions about which companies hire LPNs to work from home that I thought I would mention them separately:

- Aetna
- eQHealth
- HealthHelp
- Cigna
- Envision Healthcare
- Bayada Home Health Care
- Hospital Corporation of America
- Covance
- Catasys
- eviCore

- LifePoint

This is not necessarily an exhaustive list of companies that hire work at home LPNs. I've seen LPN job listings from these companies, but it does not indicate that the other companies listed here only hire RNs.

As always, companies' hiring needs change, so unless they say directly that they only hire RNs for home-based work, review listings periodically for LPN jobs.

Nurse Case Manager

I've noticed during research that though there are plenty of job titles for telecommuting nurses, one that I see very often is Case Manager.

Though certification may not always be a requirement for case management positions, I have definitely seen some organizations list it as a preferred qualification. Either way, a relevant credential can't hurt :-).

I noticed a conversation between two readers in the comments section that may be helpful if you're interested in becoming a certified nurse case manager. Thank you to Betty Garner for sharing these resources!

Work Abroad as a Nurse

I get a lot of questions about resources for nurses who want to work abroad. This is not a comprehensive list, but these resources are a good start.

[Indeed Worldwide search](#)

[International Council of Nursing](#)

[HealthTimes](#)

[Transitions Abroad](#)

Keep in mind that if you are interested in working as a nurse in another country, whether remote nursing or on-site, you need to check with the appropriate licensing authorities for the best information.

I hope you find this guide to be helpful!
